Reimagine Home Care with the Power of Automation

Challenges for Home Care Agencies

Home care agencies face numerous challenges, including caregiver recruitment and retention, complex caregiver-client matching, communication management, care quality monitoring, revenue cycle automation, claims processing complexities, and evolving compliance standards. They also deal with a multitude of systems, documents, and communication channels.

AutomationEdge CareFlo for Home Care Agency Processes

CareFlo is a collection of ready to use AI and automation solutions for Home Health Care agencies including Home Care, Hospice and skilled nursing facilities. CareFlo can help optimize home health care agency processes by automating manual and repetitive tasks from intake to revenue cycle management and everything in between.

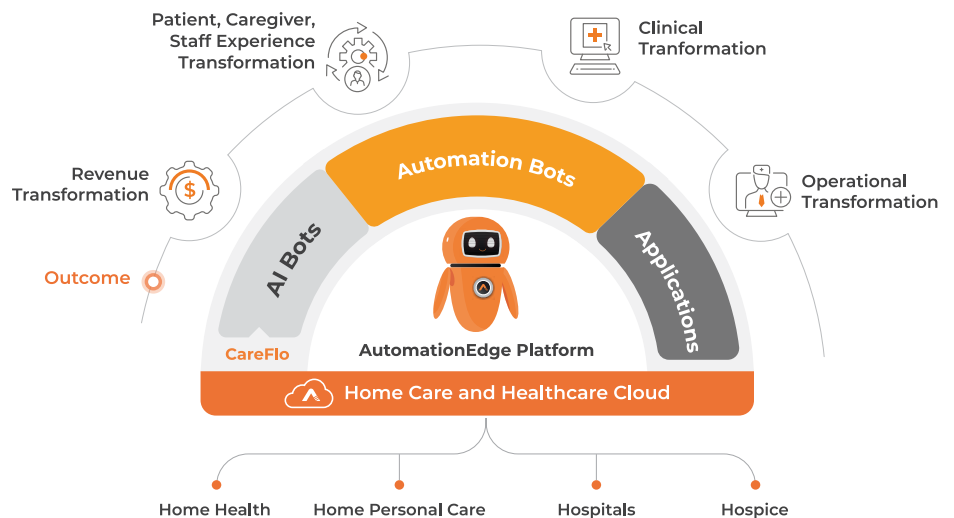

Benefits of AutomationEdge's CareFlo for Home Health Agencies

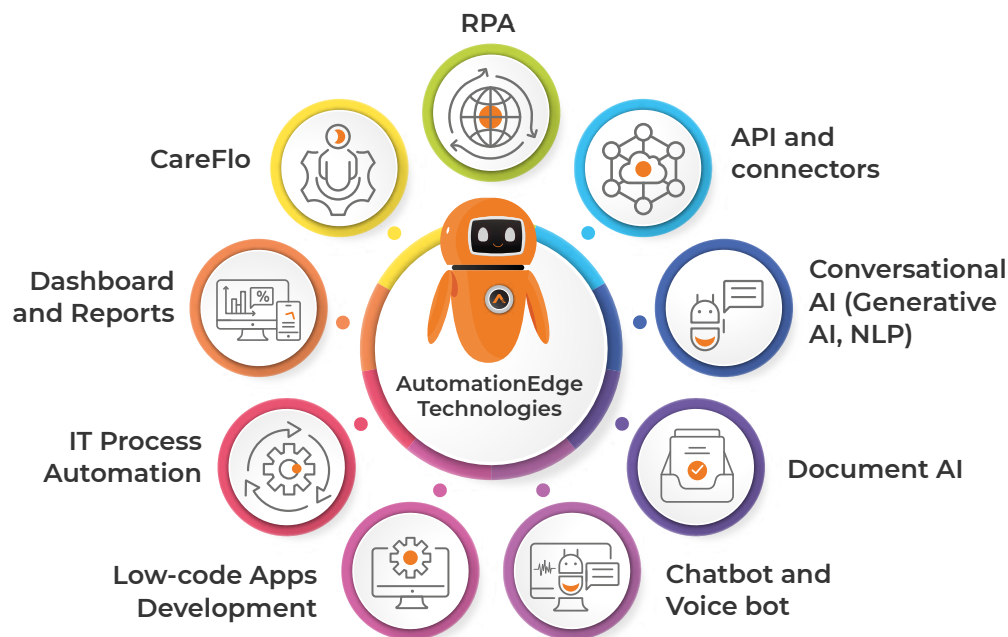

AutomationEdge AI and Automation Cloud for Home Care

AutomationEdge Home Care Cloud is a set of AI and Automation technologies. These technologies has become the basis of building the ready automation solutions called CareFlo dedicated specifically to automate Home Care processes. These technologies and solutions work together for end-to-end process automation and transform home care processes.

About AutomationEdge

AutomationEdge is a leading Hyperautomation platform with IT Automation, Robotic Process Automation (RPA), Conversational AI and Intelligent Document Processing capabilities to help healthcare organizations automate their data-intensive, manual and rule-based tasks across verticals.

Unlike other platforms, AutomationEdge has built a library of ready automation solutions called as CareFlo to automate healthcare and home care processes like EHR management, staff onboarding-offboarding, revenue cycle management, patient referral, patient electronic visit verification, caregiver churn, patient reporting, IT service desk tickets and more. These solutions reduce the time and cost of implementation and enable faster Go Live.

“

AutomationEdge helped me keeping EVV compliance over 95%, saved 50%-80% costs and prevented having to hire 4 to 5 more FTE to manage the workload. Able to make big impacts with these tools being developed for us. Just impressed with how much AutomationEdge team is able to build and have not yet found a situation where you haven't been able to figure out a solution.
