# Hyperautomation Platform for Digital Enterprise, *Beyond RPA*

Faster, Scalable and Secure
Enterprise Automation Solution with Cognitive Technologies

AutomationEdge Hyperautomation Platform

AutomationEdge Hyperautomation Platform is an integrated approach to enable digital transformation across business functions. It combines element of automation, Artificial Intelligence, ETL, Machine Learning, integration and smart analytics to enable end-to-end workflows that goes beyond RPA. AutomationEdge help organizations automate not only mundane, repetitive, rule-based tasks but also complex, cross-functional tasks across enterprise whether in the front office, middle office or back office.
It also offers a library of reusable pre-built robots/adaptors, named AutomationEdge Bot Store, to quicken the development cycle.
The store includes pre-built automation for IT, HR, Finance, Accounting, Marketing, spreadsheet processing, ERP, CRM, AML, etc.

RPA	AI	ETL	API	R-Bots
Robotic Process Automation	Machine Learning, Chatbot and NLP	Extract, Transform, Load	Rapid API Integration	Ready Bots for IT, HR & Business

AI Driven Unified Automation Platform

AI & Automation for IT

AutomationEdge IT Process Automation automates repetitive and routine IT tasks to reduce downtime and improve incident response and resolution. It offers advance capabilities like RPA, chatbot, machine learning and rapid API integrations.

Fundamentally changing the way IT issues are resolved in the enterprise

- Library of 250+ ready actions for IT systems to automate common IT processes (e.g. employee on-boarding, end user support, datacenter operations) and tasks

- Virtual assistant for IT, HR, ERP, CRM and Core business applications to serve existing customers and prospects

AI & Automation for Business

AutomationEdge - Robotic Process Automation automates repetitive data processes, like processing transactions, collating data, triggering responses, and integrating various disparate data systems. Further to that, **AutomationEdge RPA on Cloud** solution makes it easy plug & play platform increasing productivity and reducing the maintenance and support cost.

Automate tasks across enterprise

- AutomationEdge is the AI driven integrated automation platform . It's highly advanced Intelligent Automation, brings together all the essential technologies required for enterprise automation like Artificial Intelligence, iPaaS Machine learning, Chatbot, ETL, ready API integrations and IT Process automation.

Faster Spreadsheet Processing

Why AutomationEdge

AutomationEdge is the industry's fastest Hyperautomation platform to provide both robotic process automation and IT process automation solution. It is also the first in the industry to offer RPA as a Service (RPAaaS) or RPA On-Demand. AutomationEdge is a matured enterprise automation solution with true multi-tenant and scalable architecture. AutomationEdge also offers an option of flexible bots on demand which can be scaled when required. This further reduces the burden during peak hours for the teams like accounts during month end or HR during salary processing.

On-demand RPA Bot
To help you scale the bot army during peak hours

Ready Bot Store
With 400+ ready actions to reduce time and efforts to deploy

Multi-threading RPA Bots
To automate multiple processes simultaneously and reduce TCO

Industry's First RPA on Cloud
With ISO compliant cloud, high scalability and quick ROI

AI Driven Platform
With ML & NLP to handle structured and unstructured data

Only Integrated Automation Platform
To support enterprise wide automation with RPA, ITPA, iPaas

Fastest Data Processing
RPA platform with the speed of 250k records every 10 secs

Low Code and Pro Code Development
With Smart Recording capabilities to make it easier to build automation

Benefits

AutomationEdge – Intelligent Automation ensures that all operations across front office, middle office, back office and IT operations are well integrated at faster speed and reduced cost which can help increase top line and bottom line of the company significantly.

01. **Fastest RPA product with lightening spreadsheet processing**
One of the largest banks benefited with processing time reduction from 3 hrs. to 3 min.

.02 **RPA, ETL, Machine learning, Rapid API integration capabilities in one platform**
One of the largest insurance major generates policy quotation through chatbot.

03. **Large global companies are using it for complex and large scale deployment of bots**
One of the largest insurance major processes payouts worth $1.5 bn using AutomationEdge.

.04 **Extensible RPA product**
Easier to build extensions or custom business logic or complex integration.

05. **Smart Technology Platform : Unified Platform for business operations and IT operations**
Process automated range from salary transfer, loan processing, account closures, fraud detection, reconciliation, ERP automation etc.

About AutomationEdge

AutomationEdge is a leading Hyperautomation platform to provide both IT Process Automation and Robotic Process Automation (RPA) solution. It's highly advanced Intelligent Automation, brings together all the essential technologies required for enterprise automation like Artificial Intelligence, Machine learning, Chatbot, ETL, ready API integrations and IT Process automation. AutomationEdge help organizations automate their mundane, repetitive, rule based tasks across verticals whether it is front office, middle office or back office.

AutomationEdge is listed in major marketplaces like Salesforce AppExchange, BMC Marketplace, ServiceNow Store, Cherwell mApp Exchange.

Client Testimonial

Technology innovation has always been the key mantra for our business success, AutomationEdge Intelligent Automation solution has come out ahead in terms of features, cost, performance and the ability to further enhance the customer experience We are now able to process $1.5 Bn insurance payouts automatically.
