Agentic AI Platform

The State of Automation Vendors

RPA Vendors
» RPA and Document AI capabilities
» Limited capabilities and narrow focus on platform

IT, Data & Workload Vendors
» Backend automation capabilities
» Lack of front-end automation and business processes capabilities.

Employee Support Vendors
» Chatbot and Generative AI capabilities.
» Limited business process automation capability.

Domain Consultants & System Integrators
» Domain expertise, process discovery, library of use cases, system integration experience
» High cost of consulting, gaps between system integrators and vendor, lacks accountability

The State Of Enterprise Automation

High Costs
» Hidden costs and complex licensing models.
» Multiple platforms and vendors not working together.

No Skin In The Game from Software Vendors
» Lack the involvement for the outcomes
» Inconsistent implementation & inferior quality of service.

Struggle To Scale
» Projects stagnate after the pilot phase and task automation.
» Limited success for complex use cases.
