

ComplianceEdge

Effortless Automated Evidence
Collection & Reporting for IT GRC

Infusing Hyperautomation Solutions
for Compliant Processes

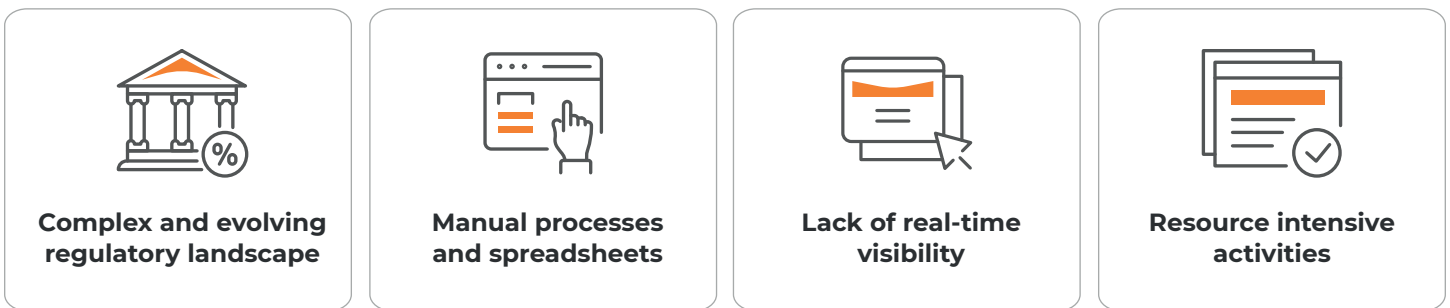

AutomationEdge's ComplianceEdge for IT GRC

Although businesses are going hyper-digital, adopting a seamless unified IT Governance, Risk Management, and Compliance platform seems unfathomable. Managing the associated GRC activities efficiently needs a holistic approach that needs robust hyperautomation technologies that ensure IT accountability and environment. AutomationEdge's ComplianceEdge leads to continuous compliance and risk monitoring with hyperautomation technologies like RPA, AI-Powered Chatbots, Conversational RPA, Intelligent Document Processing, Ready Automation workflow, etc.

Challenges that Businesses Struggle with

GRC programs without the right technologies and guidance can pose challenges that can endanger revenue, reputation, and customer and stakeholder interest. Some of these challenges include the following:

How Does ComplianceEdge Help?

Continuous Control Monitoring

Continuous monitoring and quick alerts on compliance breach For example,

- » Contractor access isn't terminated
- » New employee skips security process
- » Customer database isn't encrypted

Automated Evidence Collection

No more creating excels manually and folders full of screenshots. It automatically collects evidence and generates real-time, sharable reports.

Scalability

Enterprise-wide automation with reusable automation workflows. It increases the scope for scalability across different compliance & reporting needs.

Notifications and Actions on MS Teams and WhatsApp

Reminds to complete compliance tasks and initiates actions from MS Teams and WhatsApp

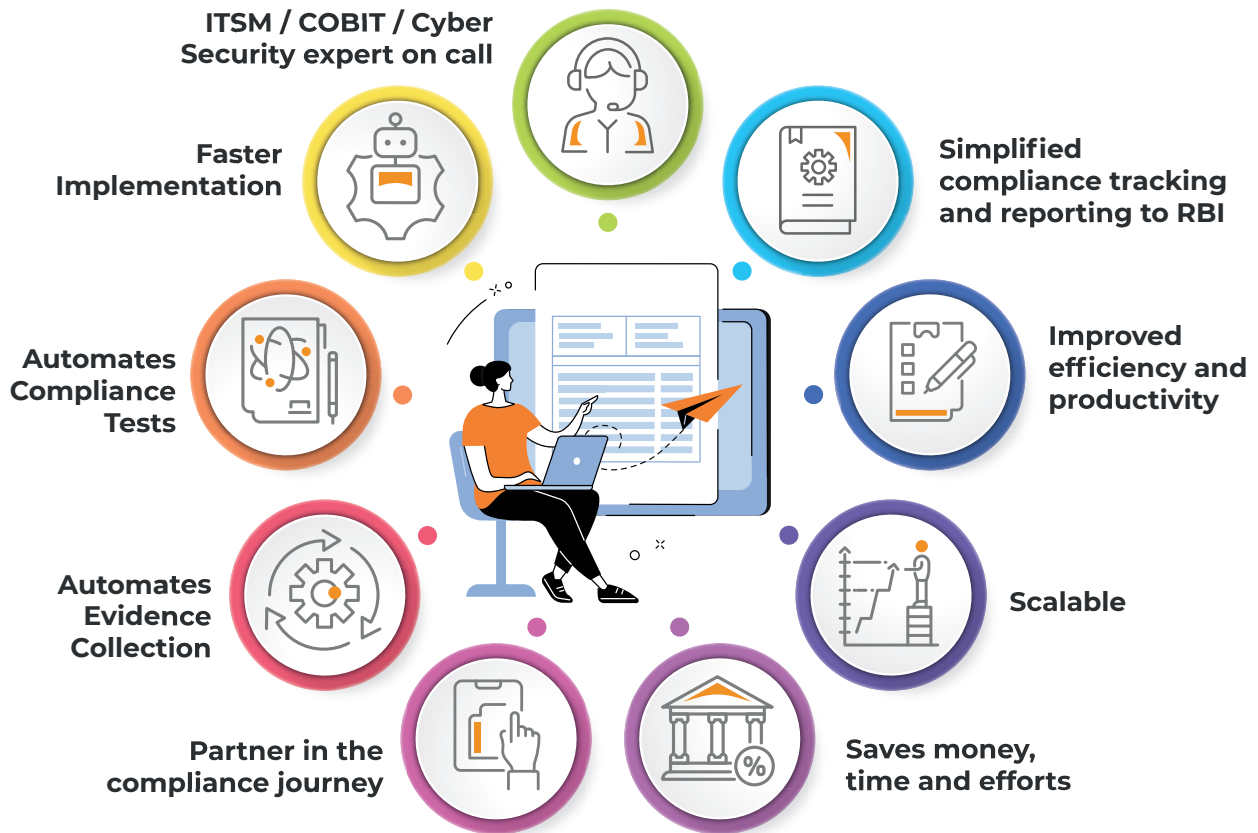

Experts on Call and Packaged Service

Seamless guidance and query resolution by compliance Consultants, Tools and Technology Consultants, and Automation Developers.

ComplianceEdge for RBI-CSITE

Benefits of AutomationEdge's ComplianceEdge with RPA

About AutomationEdge

AutomationEdge is a leading Hyperautomation platform with **IT Automation** and **Intelligent Document Processing** capabilities to help organizations automate their data-intensive, manual, and rule-based IT tasks across verticals.

AutomationEdge has delivered innovative solutions to IT service providers globally, like Cadence, VBRCM, and Global Upside Cooperation, to name a few. It helps automate repetitive business processes like service ticket resolution, network support, payroll management, employee onboarding-offboarding, security compliance management, and more.
