About AutomationEdge

AutomationEdge CareFlo is an AI Agent cloud for Home and post-acute care, hospitals, and clinics. Post-acute care (PAC) agencies, including therapy, home health, hospice and skilled nursing facilities (SNFs), and personal care agencies. They can use CareFlo to automate mundane and repetitive tasks to improve efficiency and improve client, clinician, Caregiver and staff experience. CareFlo cloud platform provides Automation, Gen AI, Integration, Chatbot and workflow capabilities.

AutomationEdge has delivered innovative solutions to healthcare and home care providers like Elara Caring, Bridge Home Health and Hospice, University of Maryland Medical System, Roche, Aspen Pharmacare, and Devoted Guardian, to name a few.

> AutomationEdge transformed our referral process. We achieved 2-minute response times for managed care patients and under 1 minute for Medicare.
>
> We were able to see a 20% increase in our referral conversion rates.
>
> This led to significant growth and improved patient care coordination.
>
> **Jessica Tonkovich, RN**
