

Automating the Review Choice Demonstration Process

The **Review Choice Demonstration (RCD)** is a Medicare initiative aimed at ensuring accurate payments to Home Health agencies while upholding high-quality patient care. Implemented by the **Centers for Medicare & Medicaid Services (CMS)**, this program plays a crucial role in **detecting and preventing fraud, waste, and abuse** within Home Health Services.

As per the report, effective from June 1, 2024, CMS will be extending the **Home Health Review Choice Demonstration Services** for an additional **5 years**.

Review Choice Demonstration Options

1

Pre-Claim Review

Ensures compliance before billing, preventing issues and ensuring smooth reimbursement.

2

Post-Payment Review

Involves payment reduction of 25% with potential recovery through high compliance.

3

Opt-Out Option

Involves 100% claim review, increasing administrative burden and risk.

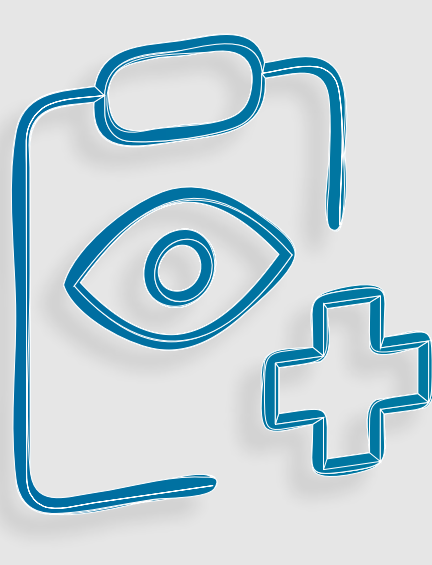

Document Requirements for Review Choice Demonstration

Physician Orders

Care Plans

Medical Necessity Proof

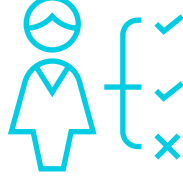

OASIS Data

Challenges in Home Care Review Choice Demonstration Processes

Comparison Complexity

Difficulty in standardizing provider comparisons due to varied review methods.

External Influences

Complications in analyzing RCD impacts due to external variables.

Delayed Data Access

Timeliness issues in data availability hindering decision-making.

Data Collection Challenges

Issues in accurate data tracking across review modalities.

Risk of Bias

Potential skewing of data due to provider practice changes.

AI & Automation Solution to Simplify RCD

01

Prepare Documentation

Completing the RCD sheet and ensuring forms are in order

02

Automate Data Entry

AI extracts patient details and populates submission sheet

03

Upload Documents

Automation tools upload documents to Palmetto GBA portal

04

Monitor Review Status

AI monitors and updates EHR with review outcomes

05

Update EHR

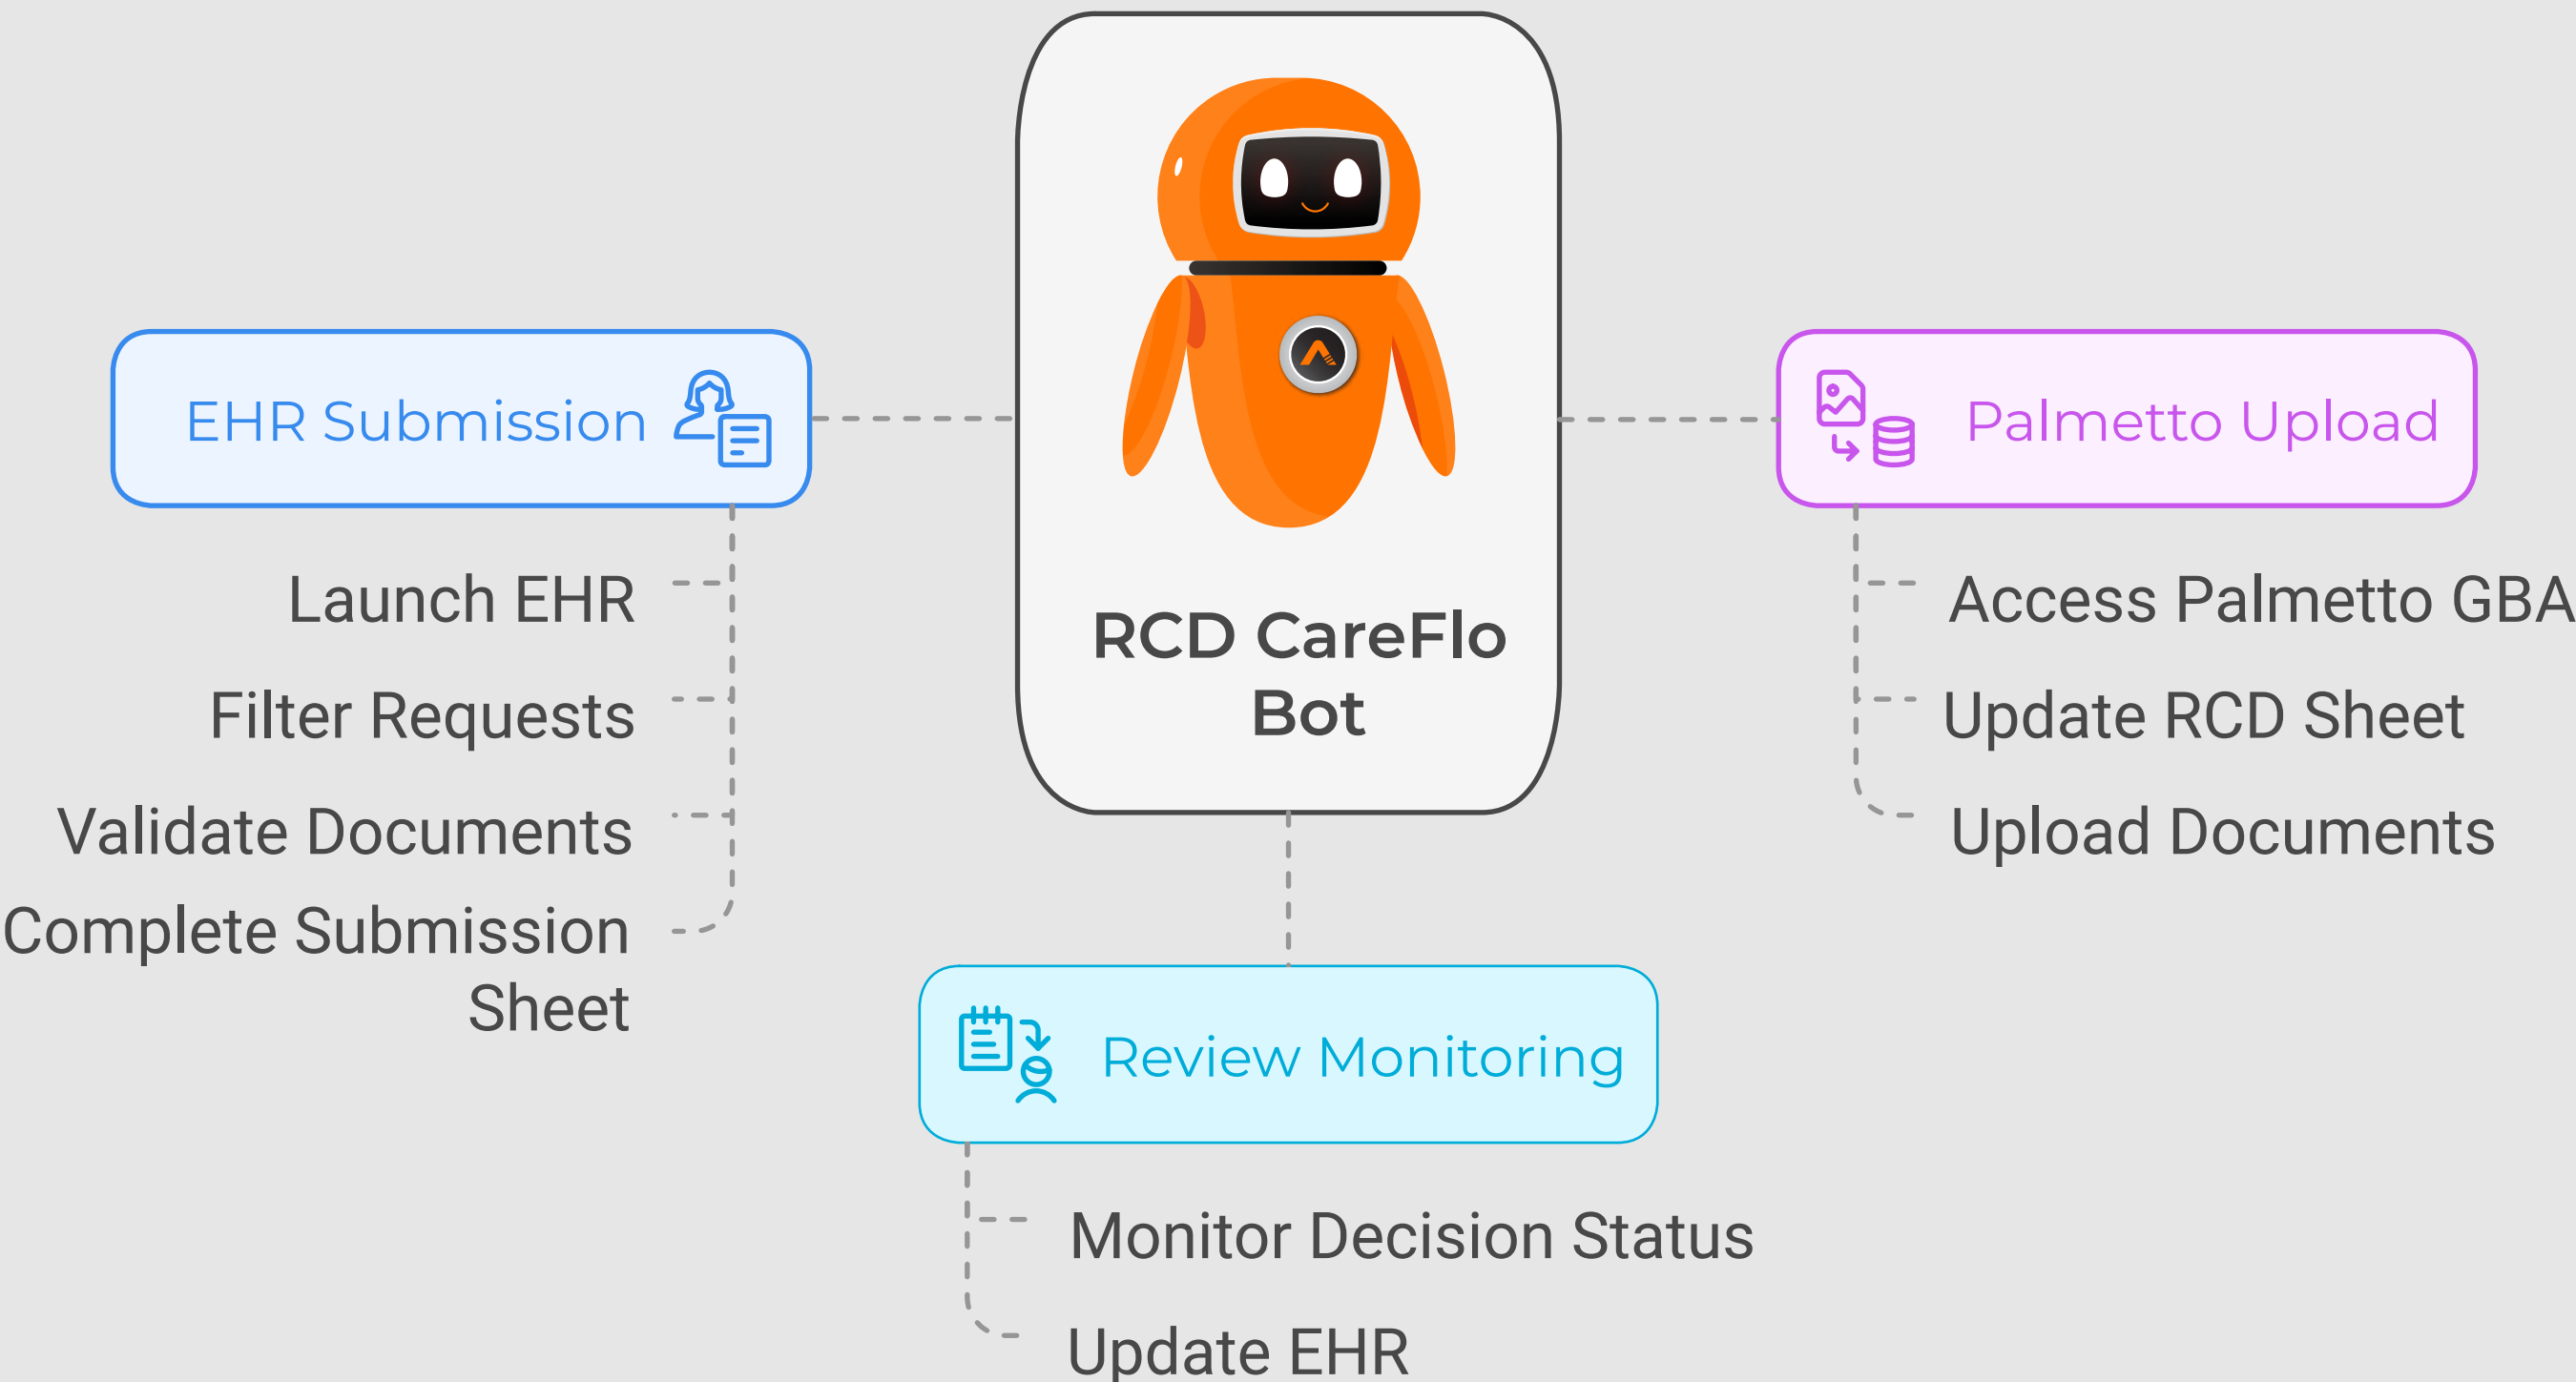

EHR is updated with review outcomes and notifications sent

06

Reduce Costs and Time

Automation boosts efficiency and lowers operational costs
